To Whom It May Concern:

I am delighted to write a letter of strongest possible recommendation on behalf of Mr. Kevin Reckinger in Bricewood Carpentry.

He and his colleagues were extraordinarily helpful every step along the way. As we were planning the project, they provided us helpful guidance and suggestions that were sensitive to our tastes. They offered excellent design ideas that we would not have come up with on our own.

The quality of the work itself is outstanding. He and his craftsmen do outstanding work. There were few glitches along the way and those that arose were promptly corrected. While there were the inevitable delays that occur with any project of magnitude, he and his workmen kept a very tidy work place such that we were able to live in the house during the renovation with minimal discomfort. The progression of the projects was planned in such a way to minimize the time that we would need to be physically out of the house which I think is quite remarkable.

In the period of time since completion of the project, Kevin and his team have continued to be extraordinarily responsive helping to deal with minor glitches along the way as they arise.

I would recommend Mr. Reckinger and his team without reservation.
